INTRODUCTION TO DFCE 2026

The Digital Future Conference and Exhibition (DFCE) 2026, organised by the Authority for Infocommunications Technology Industry of Brunei Darussalam (AITI), is Brunei Darussalam's leading platform for advancing dialogue and collaboration on digital transformation.

DFCE 2026 will be held over three days and will comprise two conferences: the Future-Ready Digital Technology Conference, taking place on 4–5 August 2026, and the Future-Ready Digital Skills Conference, taking place on 6 August 2026.

Under the theme **"Together towards a Digital Brunei: Innovate, Empower, Transform"**, the three-day event will bring together government leaders, regulators, industry representatives, academia, technology providers and other key stakeholders.

DFCE 2026 will focus on six priority areas: **Artificial Intelligence, Emerging Technologies, Personal Data Protection, Online Safety, Digital Content and Future-Ready Digital Skills**. Through presentations, panel discussions and networking opportunities, the event aims to encourage knowledge-sharing, showcase practical solutions and strengthen collaboration across the digital ecosystem.

As Brunei Darussalam's leading platform for digital transformation, DFCE 2026 offers sponsors a unique opportunity **to elevate their brand, engage with influential decision-makers, and demonstrate their commitment to advancing the nation's digital future**. Through strategic branding, networking and thought leadership opportunities, sponsors can connect with government, industry, academia and technology leaders while supporting innovation and collaboration across the digital ecosystem.

SPONSORSHIP OPPORTUNITIES

Support the DFCE Experience

DFCE 2026 offers flexible sponsorship opportunities through:

- **Direct-to-Vendor Sponsorship:** Sponsors may select an item from the list of sponsored items and make payment directly to the vendor providing the item.
- **In-Kind Sponsorship:** Sponsors may provide their own goods and services which fulfills DFCE's essential event requirements.

Organisations may support approved event items, provide relevant goods or services, or combine both sponsorship types to meet the event's requirements. Sponsorship category and recognition will be determined based on the confirmed contribution and its overall value, visibility, and impact.
